

## **BIOMARKERS AND DOSE DETERMINATIONS FOR ETS**

- Analysis of biomonitoring issues for ETS exposure assessments (Tab 1);
- Issues related to the use of cotinine as a quantitative marker for ETS exposure (Tabs 2-4);
- Issues related to the use of cotinine as a biomarker for ETS exposures in children (Tabs 5-7);
- Other biomarkers for environmental tobacco smoke constituent exposures (Tabs 8-10);
- Dose determinations for ETS exposures (Tabs 11-12).
